

How to create your password & sign in

Your portal opens straight to the sign-in screen — but you don't have a password yet, so you set one with **"Forgot your password."** About two minutes, just once. Your email is already on file, so it's usually filled in for you.

1 Click "Forgot your password?"

On the sign-in screen, click **Forgot your password?** — above the password box, on the right. **Skip magic link & Google.**

2 Get the reset link

Check your email is shown, then click **Get reset link**.

3 Set your password & you're in

Double · Reset your password

Set a password for your Client Portal

Reset password →

Open the email from Double — check spam/promotions too — and choose a password you'll remember.

From now on, open the same page and sign in with your email and this password (in the **Password** box).

Didn't get the email? Wait a few minutes and check spam/promotions. Still nothing? Just reply to us and we'll send a fresh link directly.
