

Seal A, across every use.

The chosen medallion, built out into the full kit: primary mark, lock-ups, one-color and reversed versions, the extracted monogram, and the favicon. A seal works as a hierarchy — the full badge large, a simplified emblem in lock-ups, the bare monogram tiny.

PRIMARY MARK

PRIMARY MEDALLION • FULL COLOR

COLOR VARIATIONS

REVERSED • ON TEAL

ONE-COLOR • TEAL

MONO • BLACK

MONO • WHITE

LOCK-UPS • EMBLEM + WORDMARK

HORIZONTAL

HORIZONTAL • REVERSED

STACKED

STACKED • REVERSED

EMBLEM & MONOGRAM • SMALL SIZES

EMBLEM • NO TEXT

MONOGRAM • TEAL

MONOGRAM • BLACK

MONOGRAM • REVERSED

FAVICON & APP ICON

App icon • emblem

32 px

16 px

Scale strategy. The full ring text can't be read below ~64 px, so the app icon uses the simplified emblem, and the favicon drops to the bare monogram on the teal tile for 32 px and under.
